## weBoost 470108 Vehicle Booster

### PRODUCT HIGHLIGHTS

- Boosts Talk, Text and 4G LTE Data
- For cars, trucks, vans, RVs and boats
- For multiple devices and users
- Works on ALL phones with ALL carriers
- Up to +50 dB Gain

### PRODUCT OVERVIEW

SAY GOODBYE TO DROPPED CALLS, POOR CALL QUALITY, AND SLOW INTERNET.

- weBoost's most popular 4G vehicle cell phone signal booster
- Boosts 4G LTE & 3G signals for people in a vehicle
- For multiple users (up to 4 people)
- Enhances talk, text, and high-speed 4G LTE internet
- Works on ALL phones with ALL carriers indoors
- 

The weBoost Drive 4G-M is a popular amplifier wirelessly enhances cell signals for cellular devices (smartphones, tablets, Kindle, etc). With up to +50 dB (decibel) gain, it provides stronger signals, longer battery life, and clear connections to your cell phone.

With over 40 years of industry-leading telecom experience, weBoost by Wilson Electronics has been solving frustrating cell phone reception problems with FCC-certified signal boosters for weak signal areas in the city or remote rural areas. Easy to install, complete DIY kit.

### PRODUCT TOP BENEFITS

- |                              |                       |

| • Eliminates Dropped Calls   | • Improved Reception  |
| • Crystal Clear Voice        | • Wider Coverage      |
| • Quickly Delivered Text     | • Reduced Dead Zones  |
| • Faster Uploads & Downloads | • More Bars           |
| • Reliable Connection        | • Longer Battery Life |

### WHO IS THIS FOR?

For multiple people on the road needing a reliable signal for talk & text and high-speed internet. You can't deal with another dropped call while driving. The person on the other line sounds like he's at the bottom of the ocean. Text messages get stuck and unsent. And internet crawls slower than a checkout line.

With this signal booster, get better talk & text and much faster high-speed 4G LTE internet. Perfect for people needing fast uploads and downloads for streaming apps such as Google Chrome, Safari,

YouTube, Netflix, Pandora, Spotify, and other data-heavy apps. You most likely use a bluetooth headset (if not, we include one as a limited-time gift), and you need all that precious signal strength for you and some family and friends or business partners. Get ready for dependable clear calls and fast 4G internet.

**WHICH CARRIERS DOES IT WORK FOR?**

The weBoost 470108 Drive 4G-M amplifies talk & text, 3G and 4G LTE for all major carrier networks except WiMax and iDen.

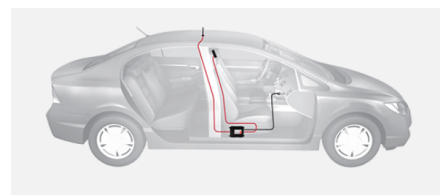

- All US carriers (4G LTE & 3G): AT&T, Verizon, Sprint, T-Mobile, US Cellular, Leap Wireless, C Spire, MetroPCS, etc.
- All Canadian carriers (4G LTE & 3G): Rogers, Bell, Telus, Fido, Wind, etc.
- Frequencies: 700Mhz, 800Mhz, 1900Mhz, and AWS 1700/2100Mhz.

**HOW DOES IT WORK?**

- It works by pulling in the existing weak signal with a 4-inch high-gain antenna, amplifying it multiple times with weBoost’s patented SmarTech III technology, and then redirecting to your vehicle. Straight from the cell tower to your phone. It’s almost magic. For best coverage, it's best to keep your phone within 18 inches of the inside antenna.

**DRIVE 4G-M CELL PHONE BOOSTER KIT (ITEM # 470108) INCLUDES:**

- Drive 4G-M Multi-band Cell Phone Amplifier/Repeater
- Mini-Magnet Mount Antenna
- Low Profile Inside Antenna
- Power Supply
- Installation Manual & Instructions
- 

**COVERAGE AREA & PRODUCT SPECIFICATIONS**

The weBoost Drive 4G-M™ cellular signal booster is a simple, effective solution to maintain continuous communication for all cellular-enabled devices – smartphones, tablets, etc - in your car, truck, van, RV, or boat
